New PRAETORIAN sites

In order to increase enrolment rate new sites are added. This quarter three hospitals have started screening and enrolment:

- Barts Heart Centre, London, UK – Dr. Pier Lambiase
- Medisch Centrum Leeuwarden, Leeuwarden, NL – Dr. Fleur Borger van der Burg
- Englewood Hospital, Englewood NJ, USA – Dr. Dmitry Nemirovsky

Furthermore, we are currently working with centers in Czech Republic, France, Germany and the USA to start as soon as possible in 2016.

REMINDER: please use PRAETORIAN study settings

Please make sure to program all devices in the trial according to the prescribed study settings. An overview of accepted “Best possible” settings is again attached to this newsletter for your convenience. When study settings are incorrect (either following implant, or changed without valid argument at a FU visit), please have this corrected at the next visit. Deviating settings are only accepted when a valid reason (patient characteristic) is given in the eCRF.
